### PROTECTS:

- Against unauthorized cart access & removal of contents.
- Sensitive data for document destruction contents.
- Against theft of valuable contents (metals, electronics).

### PREVENTS:

- Spills and cleanups from an overturned bin.
- Cross-contamination.
- Illegal dumping and dumpster diving.
- The "All you can eat" animal buffet.

Working with bin manufacturers, haulers, municipalities & residents has made the Franzen Gravity Lock 5.0 the most widely used lock on residential organic waste containers.
