www.franzenlocks.com

Instructions for Use

Semi-Automatic & AR-15 Bolt Action

1. Insert cable through ejection port and out the magazine well.
2. Attach the loose end to the lock.

Semi-Automatic

Pump Action Shotgun

1. Insert cable through ejection port and out the loading port.
2. Attach the loose end to the lock.
3. Ensure lever cannot be moved with the cable lock engaged.

Pump Action

Revolver

1. Roll out cylinder.
2. Insert cable through cylinder opening.

To Set Combination:

1. All locks are factory set to 0-0-0. Open cable lock by pressing side button.
2. While cable lock is open, use ball point pen to depress the set pin on the bottom of the lock, and turn the dials to desired combination to show on the FRANZEN side of the lock.
3. Release set pin, and check combination to be sure the correct one has been set.
4. Combination is now set and ready for use. The currently set combination must be in place to choose a new combination.

NOTE:

- ENSURE CABLE HAS BEEN INSERTED TO INDICATOR LINE
- ALWAYS PULL ON SECURED CABLE TO TEST CONNECTION
